# POLARIZATION, ALIGNMENT, AND ORIENTATION IN ATOMIC COLLISIONS

Book Condition: New. Publisher/Verlag: Springer, Berlin | This graduate text deals with polarization, alignment, and orientation effects in atomic collisions, induced by electron or heavy particle impact. The first part introduces light and particle polarization, experimental and computational methods, and the density matrix and state multipole formalism, with examples and exercises. The second part includes case studies of electron impact and heavy particle excitation, electron transfer, impact ionization and autoionization, with the final chapter discussing related topics and applications. The...
