

Proceedings of the Annual Meeting of the National Board of Fire Underwriters

By National Board of Fire Underwriters

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1901 Excerpt: . We should also have more hydrants in the business district. They are too far apart. We have a couple of suburban districts (residence) where the pressure is not good. Do not understand from what I have said that we are not in fairly good shape in the business district to fight fire, because we are; but it is the future I am looking to, and the city should be aroused to action before the time comes when the pressure is poor. Geo. W. Kellogg, Chief. KANSAS. Ottawa, April 2d, 1901. I know without any further tests the capacity of our water works plant. They can give us about five good fire streams in the business part of our town. They could increase that some by either enlarging the mains on the two streets nearest Main Street (our business street) on each side and connect them...
